Seeknit

founded in 1916

The Seeknit brand offers two lines of needles

The Seeknit brand offers two types of knitting needles, the Koshitsu line that has a brown color and the Shirotake line that are the natural color of bamboo.

Koshitsu is the bamboo needle with brown color.

"Koshitsu" is a product that has achieved a smooth surface and long lasting durability through special treatment with "high temperature, high-pressure and with natural plant wax" developed by our company based on our vast experience over 100 years of history.

It is characterized by density of the needles, the glossy surface, and the slippery feel. And above all, it is our original feature that no other company offers.

K o s h i t s u

Shirotake is the bamboo needle with natural color.

"Shirotake" is a bamboo knitting needle that allows you to enjoy the natural texture of bamboo.

It is softer than our "Koshitsu" knitting needles, so you can enjoy the natural resilience of bamboo.

The carefully polished surface and needletips are smooth and provide comfortability in knitting.
